

### **Barry Francolino**

I began to experience life with Christ within the college context. His death and resurrection became a living reality then, and now 40 years later it's even more real and substantial. After 12 years of pastoring and almost 20 years of training people to bring "closure" to our Lord's "glory ethic" among the nations, now I get to participate with a team of young people who are intent on doing the very same thing!

This Short Term Learning Experience Team (STLET) faces many challenges. As you are led to intercede, please remember to pray for:

1. our hearts to maintain a "listening posture" to each other and to the Lord
2. our assimilating many of the things that we learned from the Kairos course that helped orient us to doing cross cultural work;
3. ways that we can clearly communicate to believing communities how they might partner with us;
4. a myriad of details YET to be done in order to prepare us for living in Kenya: vaccinations, improving communications between ourselves as a team and the leaders in Kenya that we are going to assist;
5. me personally: being the only non Romanian I will be serving and encouraging multi-culturally in two directions: within the STLET as coach and mentor and with the Kenyans who live under very different circumstances.

I invite you to partner with us. You will form a vital link to our effectiveness. Bringing obedience of faith to the nations is "full-time job" of the entire body of Christ. Join us in bringing an end to the Great Commission! May His grace abound through you.
